EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Inskeep on 2/6/2007.

The application has been amended as follows:

Claims 1 and 58 have been amended by adding the following passage to the end of each claim before the period -

“, and said stent body is formed from a fibrous three dimensional non-woven matrix”

Claims 6, 55, 56, 57, 83 and 86 have been canceled.

Election/Restrictions

Claims 1 and 58 are allowable. The restriction requirement among species, as set forth in the Office action mailed on 10/31/2001, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 3-5, 7-29, 31-42, 46-54, 65-72 and 76-81 directed to species 1 and 3-7 are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claims 6 and 55-57, directed to species 2 and 8-13 remain withdrawn from consideration because they do not require all the limitations of an allowable claim.

Art Unit: 3738

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.
